"Mighty Monarch of the Air"

Majestic

MAJESTIC—already crowned "Mighty Monarch of the Air"—now gives the world the most powerful and most selective radio set ever built.

POWER DETECTION

The new models 91 and 92 have Power Detection and the new -45 tubes, plus four tuned stages of radio frequency.

NO HUM!

Absolutely no hum and no oscillation at any wave length. Automatic sensitivity control gives uniform sensitivity and amplification in both low and high wave lengths.

SUPER-DYNAMIC SPEAKER

Improved Majestic Super-Dynamic Speaker. Deep, rich tone. Extra heavy, sturdy Majestic Power Pack insures long life and safety.

DEMONSTRATION IN YOUR OWN HOME

We will gladly give you a demonstration of the remarkable new Majestic in your own home without cost or obligation.

Blanche Sweet in "The Woman in White"

Blue-blooded racketeers in a daring plot to steal a million, a bride and a girl's good name. A castle in Scotland flames with mystery involving a beautiful girl, her sweetheart and an impostor into whose arms she is forced. An old crime casts its shadows across the screen and a young girl weds a stranger to enter on the wildest honeymoon that ever befell an unwilling bride. Actually produced in Scotland.

Champion Meat Market

High School Lit. Celebrates

The Champion Literary Society made whoopee at a Halloween frolic last Friday night. The games were held in the basement of the new public school, and the banquet was spread in the high school. The girls were dressed in orange frills and flounces, cats and witches, and in dashing chinese, pirate and gypsy outfits. The boys all looked "spiff" in their party clothes too. After the "cats" had been "et," ghost stories were told and a short programme rendered. Oh, yes, it would have been a very nice party, but for two disreputable looking lums who got in and frightened the girls.

Record Shipment Of Chickens

The annual poultry shipping day at the meat market seems to be getting bigger every year. About 1100 chickens and fowl weighing 5370 lbs. left town on Wednesday. While prices were very low, grading was good. Harry Smith hauled practically all of this poultry to Calgary on Wednesday night with his truck.

U. S. Alexander Now Treasurer

Mr. U. S. Alexander has been appointed Treas. of the United Church Board in succession to Mr. W. C. Hookins. The Board are relying on the loyalty of friends of the United Church to promptly turn in their contributions to Mr. Alexander or one of the canvassers, and so reduce heavy deficits and amounting interest charges. Here is the latest Scotch story before signing off—Do you know how the great Johnson Canyon at Banff was formed? A Scotchman dropped a nickel down a crevice.

Curling Club Re-Organizes

With President A. W. Jopling in the chair the best meeting yet held by the curling club was on Nov. 4th. The meeting was called to order at 8.30, in the club room of the Community Hall.

J. D. Henderson presented the annual financial report, which showed the club to be in good shape, without any liabilities, which was accepted on motion.

The following officers were elected.

President—Frank J. Clapp. Vice-President—A. E. Woodhull.

Sec. Treas.—J. S. Collins. Executive Committee—A. W. Jopling, G. A. Orr, P. Holme. Ice Committee—Irl Ditto, Alva Baker.

Skips—B. N. Woodhull, J. S. Collins, G. A. Orr, C. McLean, A. W. Jopling, F. J. Clapp, Alva Baker, A. Woodhull, D. W. Harper, B. Hammel.

It is expected that additional skips will have to be chosen from the ranks as several of the prominent curlers declined skipdom on account of emergency of business and to assure balanced skill in rinks. Among the number was J. D. Henderson of bonspiel fame. Much enthusiasm was displayed by the large number of curlers present at the show.

Hartung-Lebsack

The wedding of Jacob Hartung and Mary Lebsack took place at the home of the bride's parents, Mr. and Mrs. Conrad Lebsack, on Wednesday, Oct. 30th at 1.30. The dinner was then served at the groom's home. The bride was dressed in white satin trimmed with georgette and carried a bouquet of pale pink roses. The bridesmaid was Miss Bertha Lebsack who carried a bouquet of deep pink roses and was dressed in pink silk crepe. The best man was John Hartung. Rev. A. Ahorn performed the wedding ceremony. There were 75 guests present.

Smith-Hartung

The wedding of Adam Smith and Katie Hartung took place at the home of the bride's parents, Mr. and Mrs. John Hartung, on Saturday, Oct. 26th at 1.30. The bride wore white georgette, while the bridesmaid, Miss Martha Kline was attired in blue flat crepe. Andrew Kutz supported the groom. Rev. A. Wedman performed the ceremony in the presence of 40 guests.

Intense Competition Must Be Met

The intensity of competition in retail trade has produced the necessity for the merchant to make every effort to increase his knowledge concerning his market. Information that certain lines are moving more slowly than others would permit the merchant to reduce the losses that are due to lack of balance in inventory. The expense of securing this type of information would be small as compared with the savings which would accrue to business from more intelligent perspective. There is no less need for the extension of research in business than there is for increased facilities for physical and chemical research which are to be provided by the the National Research Council of Canada. In the following article there is an analysis of the changes which have taken place in the past seven years in the United States.—Royal Bank Letter.

Dance Coming At Alston

There will be a dance in the Alston Community hall on Friday, November 15th, when the Melody Five will furnish the music. The admission will be \$1.00 per couple, and everyone who can attend is sure of a welcome.

Ed. Ellison of Champion and A. Berger of Parkland leave on Saturday for Norway, via England, where they will spend the winter. It is eighteen years since Ed left home and this is his first visit to parents, brothers and sisters and naturally he is figuring on a real visit.

A. S. and C. D. McDougall represented Champion at the Calgary stock sale, the former with shorthorns and Oxford sheep, and the latter with Hornshires. The stock was sold at figures well up and sometimes exceeding the best at the show.

Leishman Clothes

RELIABILITY

Value cannot be correctly measured by price.

The average man usually has difficulty in sifting the good from the poor clothes out of the many that are on the market, and then he is uncertain what he should pay.

Put your trust in LEISHMAN clothes. They are nationally recognized as unsurpassed for quality and style, and what you will get out of them in wear and satisfaction will give you the true basis of clothing value.

NOTES AND COMMENT.

News of the rescue of the lost northern surveying party was received with general appreciation. There seems to be a general dread of disappearance of the kind where no trace of the missing ones are found, and for quite a long time it looked as though this would be a case of the kind.

An out of town shopper is authority for the statement that it doesn't pay. By the time the expense of the automobile is added and hotel charges are included, it is not worth the while.

The Province of Alberta has a surplus for the year which ended March 31st last of \$1,817,871. The estimated expenditure was exceeded by \$42,000.98 during this period. The bonded debt increased \$5,032,225.94, making a total of \$92,774,156.23. The per capita expenditure was \$21.36, while the per capita revenue was \$23.63, a total of \$15,305,083.77 having been collected.

Surpluses should be a very desirable thing, but the way in which they are attained makes a decided difference to the residents of the province. These would appear to be at the maximum, and with enormous revenues the province could be quite extravagant in expenditures and still have a surplus. We would appear to be paying fairly dear for this surplus while.

The following letter from Buenos Aires, published in the Christian Science Monitor, might apply here with slight changes:

The heavy rains which fell not long since apparently have saved a situation which was growing intensely critical. In many parts of the Republic the drought has lasted some eleven months, and the earth had grown iron hard in consequence. Now, however, it would seem that danger of a crisis is averted, and there is every probability of a very rainy season.

Now, however, it would seem that danger of a crisis is averted, and there is every probability of a very rainy season.

The heavy rains which fell not long since apparently have saved a situation which was growing intensely critical. In many parts of the Republic the drought has lasted some eleven months, and the earth had grown iron hard in consequence. Now, however, it would seem that danger of a crisis is averted, and there is every probability of a very rainy season.

I have heard it said occasionally, and seen it demonstrated often, that the town and country are separate; that their

interests are not mutual and that city folks are superior in some undefined way from the country folks. This is a mistaken notion and when permitted to develop saps the strength of the community, results in misunderstandings, diminishes local business, increases mail order sales and causes the blight of discontent to cast its pernicious influence over every individual in the community.

The country cannot live comfortably without the town, but just as emphatically the town cannot exist without the country. Each is dependent upon the other, and both should strive to eradicate any imaginary differences that exist and work steadfastly for the upbuilding of the community of which they are a part. The town folks and the country folks, joining what they have of production and distribution, can create such a condition of comfort and happiness as will constitute the ideal community of human beings. There is no such thing as caste in this country, and neither social nor racial superiority is determined by the distance separating any individual from the town hall. The automobile, the radio, the universal distribution of good magazines and improved living conditions have

long since wiped away any imaginary differences between the citizens who live closer to the gas house.

Communities are made of folks, and not of houses, farms, stores, red barns, hanks and school houses. All these are very necessary to human well-being, but after all, they merely represent the result of human aims, ambitious and efforts, and it is the human life and energy and intelligence back of these things that determine what they shall do for the community. The higher the type of people the better will be the physical attributes of the community. The difference between any given community today, with its fine houses, stores, farms and factories, and the same community when it was surrounded by Indians can be traced to the difference between the people who are here now and those who were here then. R. S. Williams in Dealer Service Bulletin.

Martin Birkenes returned from a trip to Peace River this week. He is delighted with the country and proposes returning to locate in the near future.

Lutheran Church Services.

The Lutheran Church still preaches the Gospel of Christ and His crucifixion. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Oct. 27th, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

Figures Showing Cost Of Wars Should Bring Home To Everyone The Futility Of Armed Conflict

Everyone must fight if we have another war. The fighting won't be on the battlefield but it will be fighting on the land and on the sea and in the skies. It will be carried right into the homes of the people. Everyone will fight and everyone will lose. The cost would be unthinkable, and part of the price might be our civilization. Even the victors must lose in modern warfare.

The Napoleonic wars (1790-1815), a conflict that lasted 9,000 days, killed 2,100,000 human beings, and cost \$3,070,000,000.

The American Civil War (1861-1865) lasted 1,350 days, cost 635,000 lives, and \$7,000,000,000.

The Franco-Prussian War (1870-1871) lasted 210 days and cost 280,000 lives and \$2,100,000,000.

The Russo-Japanese war (1904-1905) lasted 548 days, cost 160,000 lives and \$2,100,000,000.

The above figures are for wars of the recent past, but how they pale before those of the World War!

The World War (1914-1918) lasted 1,563 days, cost 9,818,000 lives and \$18,233,637,000.

Now, all the real property in the United States, from the Canadian border to the boundaries of Mexico, and from the Atlantic to the shores of the Pacific Ocean, are worth considerably less than the cost of the World War.

It should interest and impress all engineers, business men, and all other people with common sense, to learn that all the steam railroads and their equipment, all the motor vehicles, all the street railways, all the telegraph systems, all the telephone systems, and all the electric light and power stations of the entire United States of America could be purchased for a sum of money considerably less than one-quarter of the cost of the World War.

We have been told that of all moneys raised from the peoples of the earth in taxation, eight cents out of every dollar goes to defray the costs of the wars of the past and in the preparation of future wars. The thing is absurd.—General Electric Review: 1929.

Prizes For Canadian Fruits

Exhibitors From Dominion War Awards At British Exhibition

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canadian exhibitors at the Imperial Fruit Show, which was held at Bingley Hall, Birmingham, according to cables received at Ottawa by the Department of Agriculture. Eight of the first prizes were won by Nova Scotia apple growers, and four by British Columbia. Nova Scotians secured the three second prizes. The most successful individual Canadian exhibitor was Charles A. Bentley, of New Brunswick, who secured no fewer than five firsts. The Associated Growers of British Columbia, Limited, of Vernon, B.C., obtained three.

The British Columbia company were also successful in the British Empire section, securing a first and second prize.

Record For Building

Building permits issued in Canada during the first eight months of this year reached a total of \$184,668,000. Not only was this the highest for the period ever recorded by the Dominion Bureau of Statistics, but it was 10 per cent above the previous high record in 1928.

Then there was the Scotchman who, when asked what he had cleaned in his fat, answered: "My wife's false teeth—she's been eating between meals."

Venice, Italy, is built on seven hills, and is called the "City of the Seven Hills."

In 1922 the first telephone conversation across the Atlantic took place.

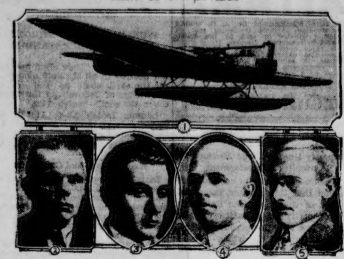

"You eat all day, but work? Never. I don't believe you are listening to what I say."

"I thought you were talking to yourself, sir."—Lantier, Kolner Zeitung, Cologne.

"LAND OF THE SOVIETS"

Four Russian aviators flying the "Land of the Soviets" from Moscow to New York, took off on October 19, from Vancouver, Wash., for Oakland, Calif., first stopping point of their final long hop across the United States. The fliers were forced to land on account of engine trouble. The photographs show: (1) "Land of Soviets" (2) Philip Bolton, second pilot. (3) Dmitry Puzos, mechanic. (4) Semen Shastkon, chief pilot, and (5) Boris Byersing, navigator.

Received Queer Training

Men Unacquainted With Farm Work Returning To England

Some 200 men, who are returning to England, admit that though they accepted training there at the public expense, together with free board and free transportation to Canada, they were ignorant of farm work. If their statement that they never saw a cow or a plow in the course of their training is correct, it would be interesting to learn what kind of training they were given and how much it cost. Taken together, the men's confession of their dislike for farm work and the complaint about the training suggest an explanation of the refusal of the Canadian farmers, with whom they were placed, to pay the promised wage of 10 pounds a month.—Truth, London, England.

To Study the Arctic

Expedition Of Graf Zeppelin Will Investigate Scientific Subjects

Dr. Walter Blunt, secretary and treasurer of the Aerial Arctic Society, announced plans for a voyage of Arctic exploration about the Graf Zeppelin to be taken next April by a group of 12 scientists headed by Fritz Jot Hansen. The principal objects of the projected expedition, Dr. Blunt said, would be to make the boundaries between the deep and shallow parts of the Arctic waters, to study meteorological conditions and to prepare for the establishment of scientific stations in the ice fields.

The Wife: "There are two ways of looking at every question."

The Husband: "Yes, I know. Yours and the wrong one."

Changed Methods in Handling Milk

Where proper scientific measures are observed the bacteria in a drop of milk last only 10 days.

Where sanitary precautions are taken the milk can be handled with safety. The whole process is a matter of time.

How much do the farmers and dairymen of Canada and United pay in toll to bacteria in milk? In process of arriving at the answer to this question, representatives of leading milk and dairy products companies of New York recently met with officials of the State Agricultural Experiment Station, with the Department of Health and Markets and the College of Agriculture at the Experimental Station, Geneva.

The bacterial count is being used more and more as a basis for determining how much per pound a farmer is to be paid for his milk. Getting the bacterial count under a given figure means millions of dollars annually to dairymen. Dairymen, themselves, are alive to this question, but they are not prepared to make a material part of the income from the farm, complete sanitary precautions are being taken to insure a low bacterial count in the milk.

Precautions start at the beginning of milk production and continue clean through until the time the milk is in the hands of the consumer. To begin with, properly ventilated, easily cleaned stables are provided; plenty of water is given the cows; platforms are built the right length to accommodate the particular breed of cows that are kept; the gutter is built wide and deep; the animal

Says British Empire

Not Commonwealth

Use Of This Title Wrong, Says Sir John Sandeman Allen

"To call the British Empire a commonwealth of nations is quite wrong," the Toronto Board of Trade was told at the Royal York hotel by Sir John Sandeman Allen, J.P., M.P., chairman of the Royal Empire Society, member of council of the International Chamber of Commerce, and secretary of the commercial committee of the British Empire.

"Most people," he said, "talk about the empire as a commonwealth of nations. This is wrong. The empire is divided into three parts, of which the British commonwealth of nations is one. This is the governing body of the empire, and is made up of a group of independent nations, who are mutually interdependent. There are 407 separate nations, each with different creeds and customs, who before the advent of British rule were continually at war with each other, the weaker preyed on the strong. Now India is two-thirds ruled by native princes responsible to the British crown, and kept together by Pax Britannica. The third part of the British empire is the colonial empire. This is the countries where the populations are not yet fit to govern themselves entirely, but are ruled by the crown, under the principles of British freedom and equality for all."

Ballrooms are frequent and severe in sub-tropical regions and are rare in the coldest parts of the earth.

The White House was first painted white to obliterate marks of fire left by the British invasion in 1814.

Predicts That Crow's Nest Pass Agreement Will Govern Grain Rates On The Churchill Route

Lights Make Hens Lay

Increases Winter Production But Does Not Affect Yearly Total

To view the fact that fresh eggs are nearly always a higher price during the winter season than during the summer many poultrymen have been interested in the possibility of increasing winter egg production by the use of artificial light.

At the Dominion Experimental Station, Kapuskasing, Ontario, an experiment has been conducted for a period of five years in order to obtain some data on this subject. The experiment covered a period of one month each year, from November 1 to April 30, during which time the electric lights were turned on at four o'clock in the morning and remained on until daylight. One hundred pullets were used. These were divided equally as to weight, general development and breeding into two pens of 50 each. All conditions were made similar except that the one pen had these extra hours of light to work on.

Over a five-year period the pen with lights produced on the average 26.7 eggs a pen, as against a total of 26.1 eggs a pen, in the six months; while the pen without lights produced 2.67 eggs a pen, as against 2.21 eggs a pen, in the six months. The average over the whole year, the pen with lights laid fewer eggs than the pen without lights.

From the figures obtained it is seen that it would appear as though lights have an effect on the number of eggs laid during the winter months, when the eggs are highest in price, but on the other hand they do not materially alter the total number obtained for the whole year.

Increased Demand For Beef

Price Will Be Higher Next Spring

Beef prices in Canada next spring will be high, due to the fact that there is a shortage of beef cattle in the country and comparatively few are now going into winter feeding. Trade reports for September show the exports of fresh beef to the United Kingdom as being nil, and the United States there was a falling off from \$1,307,208 to \$487,912.

No fresh beef has been shipped to the United Kingdom for several years. At present the price in Canada is so good and the demand so steady that there is only a small chance for a pound between the best English killed beef and Canadian beef. The cost of transportation in three cents a pound so that it does not pay to ship.

Supplies of cattle reaching Canadian markets at the present time are very moderate, my officials of the livestock branch, both in Eastern and Western Canada. There has been no liquidation, however, no forced sale, so the farmers have not done so badly.

The domestic demand at good prices indicates a measure of prosperity in the country, where people are able to buy meat at good prices despite the competition of the American consumer wanting Canadian beef.

The Psychology of It

If you disagree with the fellow's fender, it is because he didn't give you enough room. If he scrapes your car, it is because he didn't give you a good reason. If he hits you, it is because he didn't give you a good reason. If he kills you, it is because he didn't give you a good reason.

A mouse can pick up a scent more than a mile away.

He: "Have you heard that I have become an actor?"

She: "No, I only heard that you had gone on the stage."—Musketeer, Vienna.

He: "I have heard that you have become an actor?"

She: "No, I only heard that you had gone on the stage."—Musketeer, Vienna.

"No," replied the operator, "but I know where you are."

In the opinion of Hon. Charles A. Dunning, Minister of Railways, the Crow's Nest Pass agreement will govern the east-bound rates on grain and flour on the Hudson Bay route.

"There is no doubt in my mind," he said today, "that grain will travel to Churchill on a mileage basis the same as to Port William." Mr. Dunning explained that he could not speak in regard to general freight rates, but grain was in a different category.

"In respect of all other rates," he said, "when the road approaches operation, the Canadian National will have to file their rate tariffs with the Board of Railway Commissioners, and will be open to everyone to appeal against them if they are not satisfactory."

Mr. Dunning said that he had been pleased to note that the rate of Saskatchewan, in this respect, had been inactive. The traffic operation of Saskatchewan, he believed, had been accumulating information on Hudson Bay route rates for some time and, undoubtedly, would defend the interests of shippers at the proper time before the rate making body—the railway board.

It is a matter of fact, he said, that the rate of the route has paid much less attention to the rail rate aspect of the Hudson Bay route than to the ocean rate. He recalled the Hudson Bay route category within the jurisdiction of the Canadian people, while the ocean rates, which will be of equal importance to the success of the route, are not controllable by Canada. Therefore he has designed the policy of the Hudson Bay route, on the subject of his administration to obtain as much evidence as possible on the vital question of the safety and efficiency of the Hudson Bay route, as seen from the viewpoint of navigation.

To this end, every ship which has been chartered by the government to carry supplies into Churchill or to sail in these waters, for any purpose whatever, has been chartered on the basis of time. As a rule, ships are chartered for a fixed sum, and the Dominion might have saved a little money by driving a hard fast bargain with the owners of ships which have been chartered to sail in these waters. Mr. Dunning thought this would be unwise. He has chartered on time.

The result has been that he is building up a record of the fact that he has taken ships to go into Churchill and out again to home ports and is in a strong position to prove that the delays in navigating the Straits and the Bay, due to fog, ice or other perils, are negligible.

In view of the general progress of the work, Mr. Dunning said that the railway will be in operation next summer and the port will be open for a round between the Straits and the Bay. The past season has been very successful in every respect. The work at Churchill will well up to the mark. In fact, the work for this year was completed on October 21, and the engineers took advantage of an extremely high tide, which was on the beach the dredges and scows and tugs far back on the beach where there will be a minimum of risk from storms during the fall and spring.

During the summer 500,000 cubic yards of material had been removed from the harbor and it was only necessary for the dredges to stop work on one day on account of weather conditions.

While a little shore ice has been noticed at Churchill in the morning during the last few days, Mr. Dunning said that the ice will not impede navigation. With regard to the Straits, Mr. Dunning said that he reports today (Oct. 28), were to the effect that the ice had not reached any one of the three direction finding stations situated between the Atlantic and the Bay. Fox Channel, so often referred to as a peril to navigation in the autumn, has not yet appeared. There really seems not to be much to be feared from the ice at Churchill and points inland. For example, the temperature on October 25 varied between 46 and 32 degrees above zero, which would compare favorably with most cities in Canada on that day.

Identify Not Important

The Governor of the State was inspecting some of its institutions. When he reached one of the lunatic hospitals he received word that the operator, "I guess you don't know who I am?"

"No," replied the operator, "but I know where you are."

Over fifty million packages are sold each year.

ROCKWELL TEA

'Fresh from the gardens'

Canada Among the Nations

Canadians of all classes can hardly fail to feel a thrilling pride in the rapid strides forward made by their Dominion in the realm of international affairs. Since that fateful day in 1914, when the world was plunged into war, and Canada at once, and without the slightest hesitation, took its place in the front rank of the Allied hosts, the growth of this country in world estimation and influence has been one of the remarkable features of the international situation.

Hardly a year has passed without witnessing some new advance step taken, or some noteworthy achievement added to the record, revealing Canada's new and higher status in the councils of the nations.

Concisely, but eloquently, Sir Robert Borden outlined the Dominion's growth in international status within the short space of the last two years in a memorandum prepared and submitted by him to the Institute of Pacific Relations now in session at Kyoto, Japan. Since 1927, when the Institute last assembled, Canada had adhered to the multilateral pact for the renunciation of war, has given adherence to the optional clause in the Statute of the Permanent Court of International Justice, has exchanged ministers with France and Japan.

Canada, too, has aligned itself whole-heartedly with Premier Ramsay MacDonald and President Hoover in their effort to promote mutual understanding and goodwill between all sections of the English-speaking world, thus paving the way for a larger measure of world disarmament, and making an immensely important advance toward the goal of permanent world peace.

Nor has Canada confined its efforts to the signing of treaties and the making of gestures. When the unfortunate incident of the "Im Alone" arose—a happening which in days gone by might have precipitated almost immediate war, and certainly a feeling of hostility containing the seeds of future trouble, Canada kept cool, and through the medium of diplomatic correspondence between Ottawa and Washington, a basis of arbitration was quickly and mutually arranged to the satisfaction of both nations. Speaking of this correspondence, Sir Robert says:

"The diplomatic correspondence on the subject between Canada and the United States is admirable in tone, and the questions of fact and law presented are set out with clarity and fairness on both sides."

In the Assembly and Council of the League of Nations, Canada's voice is always heard in support of all measures calculated to make for peace. This Dominion is a real leader at Geneva in all efforts to promote international understanding and goodwill, and in the devising of ways and means to remove causes of suspicion and irritation.

Coincident with the rise of Canada as a factor in international affairs, the foreign trade of the Dominion has increased by leaps and bounds until now this country can boast of the second largest world trade per head of population. Canada's ministers at Washington, Paris and Tokyo, are reinforced in this work of creating international goodwill and prestige for Canada by a large and steadily-increasing number of trade commissioners in all parts of the globe.

Canada's strong position can be made stronger through the united sympathy and effort of the Canadian people. Sir Robert Borden, while voicing unqualified praise of the untiring past, declared that the peace of the world cannot be secured by treaties alone, nor can it be maintained by force. The same foundation which assures ordered liberty and justice in a modern civilized state must be created on an international scale if peace is to endure.

The education and idealism of the people, their inherited respect for law, and their determination to maintain order and justice against crime and lawlessness," Sir Robert said, "are the real foundations upon which stable government rests. In the world there must be an international public opinion upon which will be established between the nations the enthrone of the people and of justice."

Canada, no less than other countries, has everything to gain through the development of such an international public opinion. Only by the maintenance of peace can Canada's great foreign trade continue to prosper and grow. The developmental public opinion must begin within each national unit and spread through the whole body of humanity.

Canada has that international viewpoint. It is growing stronger, and every true Canadian will exert himself or herself to foster it. It is one of the greatest things in the nation and in the world today.

Commands Atlantic Liner

Ronald Stuart Was First Canadian To Win the Victoria Cross In British Navy

At least one Canadian holder of the coveted Victoria Cross "worked his way" to England for the Prince of Wales' dinner on Nov. 9, and no one can deny that he earned his passage. This is Commander Ronald Stuart, V.C., captain of the Canadian Pacific liner, "Duchess of York," the first Canadian to win the Victoria Cross in the British Navy.

Commander Stuart brought the C.P.L. steamer "Princess Blagovest" to the Pacific coast on her maiden voyage last year and was later elevated to command of the crack Atlantic liner which he now sails.

Mother—"Shall we invite the boy next door to your birthday party?" Little Lottie—"I don't think so, he's so good nobody likes him."

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "It was nervousness that held me down. Now I eat better and sleep better." "It helped my thirteen year old daughter. I took it before and after my baby was born." "I am gaining every day."

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1810

Safer To Stand Up

Muscolini Had Amusing Experience At Theatre In Italy

You don't have to believe this, but a gentleman returned from abroad saying that an American girl studying Italy went into a moving-picture theatre and suddenly realized that she was sitting just behind none other than Il Duce Mussolini himself. His visit was inconspicuous, and successfully so, for no one recognized him. In the half light of the cinema, he was enjoying everything hugely until, in the midst of a new scene, a woman in the audience in heroic pose was thrown on the screen. The spectators of course, all arose, cheering wildly, all save Mussolini himself, who sat through the demonstration, fidgeting. His had been, obviously, a rather nice point—whether to stand up and risk being recognized, or to remain seated. After the excitement was over an old Italian lady who had sat next him leaned over and said: "Signor, that's how we all feel, but it's safer to stand up."

NERVE TORTURES

A Condition From Which Both Men and Women Suffer

Hardly any condition of ill health causes more real suffering than a nervous system which is out of control. Unfortunately, but the little sympathy is shown for the sufferer, from the mistaken notion that the nerves can be controlled. Men and women with a nervous system out of control are liable and are blamed for ill temper, when it is in fact their nerves that are the cause. The tired, over-worked wife and mother, whose household duties weigh her down, the breadwinner whose anxieties have worried him, and who, from really ill, are among the nerve sufferers who become run-down. Their nerves, like all bodily functions, need rich, red blood. In all such cases the best and simplest treatment is Dr. Williams' Pink Pills, which enriches the blood and builds up the nervous system and brings good health and cheerfulness. Mrs. M. Cross, Richmond, Que., writes: "I have long suffered from nervous troubles. I was nervous and dizzy spells, and the hands and feet tingling, which in such a condition make life a misery. The first thing I found to help me was Dr. Williams' Pink Pills. Under the use of this medicine I found my nerves grew stronger, and I became brighter and more cheerful. I took the pills for some time and found that they enrich the blood, build up the nervous system, and give me the best of health and energy."

You can get these pills through any medicine dealer or by mail at \$1.00 a box from Dr. Williams' Medicine Co., Brockville, Ont.

Demonstrates New Serum

Young Military Doctor Discovers Substitute For Blood Transfusion

The efficacy of a new serum, which is said to take the place of blood transfusion, was demonstrated at the Pean Hospital, Paris, where the life of a motorcyclist was saved after he had been badly hurt in an accident. The serum is the discovery of a young military doctor attached to a branch of the Pasteur Institute, in Hanoi, Indo-China.

Before the serum was tried on human beings, experiments were conducted in Paris at the Pasteur Institute. The serum was injected into a dog from which most of the blood had been drained, and the animal immediately revived and took food. The motorcyclist was successfully treated when he had already lost two quarts of blood.

Persian Balm is a thoroughly fragrant, adds a charming element to the most finished appearance. Creates and preserves complexion of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbs all the impurities leaving never a vestige of stickiness. A perfumed toilet requisite, invaluable to all women who care for elegance and distinction.

The Union of South Africa, in 1921, had a white population of 1,500,000, against 5,000,000 blacks.

American Tribute To Ramsay MacDonald

New York Paper Makes Kindly Reference To His Sincerity Of Intent

Though he modestly puts away the personal aspect of it, it has been a distinct triumph for Ramsay MacDonald in his speech. His bearing has been perfect. Not one slip in act or speech did he make while he was here. Deeply impressive has been his abiding sense of the high mission of peace which he came, and which he hopes will lead to all-embracing benefits throughout the world. His eloquence has been that of elevation of mind and nobility of purpose. On divers strings he has sounded the one clear note of a passion to secure established peace on earth through every reasonable and honorable means. Such speaking as his, coming to a climax as it did in his magnificent address on Friday night, has seldom been heard in any country from the lips of a citizen of another—New York Times.

New Grain Loading System

Now and Improved System To Be Put In Operation At Montreal

A new and improved system of grain loading will shortly be in operation in the Port of Montreal. The first of two mechanical grain loaders is being erected on shed 9, one of the berths allotted to the Canadian Pacific Steamships, and the second will be set up shortly afterwards. It is expected that further improvements along this line will be part of the fall building programme.

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfit for a day of business, and yet, as the day wears on, the attacks return. All this night suffering and loss of sleep can be relieved by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Recipes For This Week

(By Betty Barclay)

VEGETABLE SOUFFLE

- 1 cup left-over vegetables.
- 1 tablespoon flour.
- 1 tablespoon butter.
- 1 teaspoon sugar.
- 2 eggs.
- Salt.
- Pepper.

Add the flour to the butter which has been melted in a saucepan, and blend until smooth. Add the water slowly, stirring to keep smooth. Cook one minute, stirring constantly. Then add the milk. Pour the mixture over the eggs which have been beaten until light, and to which have been added sugar, salt and pepper. Add mixture to the vegetables which have been placed in buttered baking dish. Bake in slow oven until souffle is set about 40 minutes.

LEMON CATSUP

- Grated rind of 4 lemons.
- 1 tablespoon grated horseradish.
- 1 teaspoon salt.
- 2 teaspoons white mustard seed.
- 1 teaspoon celery seed.
- 4 cloves.
- Few grains red pepper.

Mix ingredients; boil thirty-five minutes, and bottle while hot. Let stand five or six weeks to ripen. Serve with fish.

Another thing that the world needs is an alarm clock which will come right back and ring again after you shut it off in the morning.

Feel Sure? Use Minard's Liniment.

Cost Of Keeping Clean

Ten Cents Of Every Dollar Goes Toward Bunching Dirt Says Statistician

Ten cents of every dollar spent by the average American family is for the purpose of keeping clean, a survey of this little discussed phase of daily life by Ronald Millar, New York statistician, shows.

Based on his calculations upon a family of four, \$1.18, in The American Magazine, estimates that \$1,000 a year is the least price of cleanliness that can be quoted. Of this amount \$460.35 is the minimum yearly total for personal and household cleanliness; \$485 for the services of cleaners whether employed directly or indirectly, and \$72.80 for civic cleanliness.

In personal household cleanliness the statistician includes soap, polish, shaving equipment and materials, hot water for washing or bathing, haircuts for husband only, toothbrushes and dentifrices, handkerchiefs, towels, linen and power or up-keep for whatever cleaning devices that may be used. The housewife is granted, under the second group, 35 cents an hour at the rate of two hours a day for 300 days in the year. Whether or not she receives any actual pay, the work is still chargeable since it is time which any woman might employ for cash profit. Likewise, says Millar, the cleaning of railway cars, automobiles and even the grooming of 19,000,000 horses that still exist in the country, ultimately becomes a charge upon the individual.

"Food and shelter lead in the cost of living," says Millar, "but the cost of cleanliness is higher than that of clothes, education amusements, owning an automobile and many other things that figure more prominently in the household budget."

An Old For All Men.—The soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism is excellent. Therefore, should have a place in all home medicine boxes to be amongst those taken on a journey.

The City Of Parks

The Moose Jaw Optimist—organ of the young men's section of the Board of Trade—has awarded to the winning town in question the title of "The City of Parks," and mentions, incidentally, that there were 40,000 visitors to the Moose Jaw Animal Park since May, not including the 5,000 present at the Indian Pageant.

Minard's Liniment relieves stiffness.

Watch the Lanterns

The Farmer's Advocate says: As the days shorten the lantern comes into use in choring, night and morning. Plenty of hooks should be provided, and the wires as well, along with the lantern may slide. Carelessness with the lantern has resulted in many disastrous fires."

Poultry Feed Grows

Membership in the Manitoba Co-operative Poultry Marketing Association Ltd., Hartney, Man., has increased during its seven years of life from 1,000 to 11,000.

Made In Turkey

Owing to the success of the first exhibition in Constantinople of Turkish national products, it has been decided to fix a week in August every year and to exhibit and sell only articles produced in Turkey.

Needless Suffering

The next time a headache makes you stay at home—

Or when other aches or pain prevents your keeping an engagement—

Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.

These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.

Don't be a flartry to unnecessary pain. To colds that might so easily be checked; neuritis, neuralgia; to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed, but the cause of any pain can be treated only by a doctor.

TRADE MARK REG.

LIQUOR CONTROL FAVORED BY VOTE IN NOVA SCOTIA

Halifax.—In a plebiscite on the liquor question the number of Nova Scotia voters who expressed a preference for government control, and who exceeded by more than 28,000 the number of those who indicated their desire that the present prohibition law be kept.

Both Dr. H. R. Grant, leader of the prohibition forces, and J. H. Winfield, leading the government control campaign, interpreted the figures as indicative of the defeat of the prohibition law.

Two questions were before the voters but thousands voted on only one. The questions were whether the prohibition law, known as the Nova Scotia temperance act, should be continued or whether a system of government sale should be set up.

With only 45 cents per gallon, and from out of a total of 1,137, the figures were:

For the temperance act, 61,672.

Against, 56,924.

For government control, 80,757.

Against, 41,180.

The vote will be interpreted officially by the government.

Premier E. N. Rhodes said he would wait for more complete information before making a statement.

Only Nova Scotia and Prince Edward Island of the provinces of Canada now have prohibition laws.

Upholds Alberta Court Ruling

Privy Council Says Certain Victory Bonds Liable To Death Duties

London, Eng.—The judicial committee of the privy council dismissed with costs the appeal of the Royal Trust Company against the government of the province of Alberta.

The ruling upholds an Alberta court decision that succession duty is payable on certain Victory Bonds, part of the estate of the late Wm. Hull, such bonds being "legally situate" within the province.

The ruling is important as establishing liability of Dominion government bonds to succession duties taxation and it is understood the province of Alberta is a large financial gainer by the ruling.

H. P. McMillan, B.C. of London, and Attorney-General Hon. J. T. Lymburn of Alberta, represented the province and Geoffrey Lawrence, K.C., London, and H. G. C. Newberry, Calgary acted for the trust company.

Lipton Building New Yacht

Shamrock V. Being Constructed Under New York Club Rules

London, Eng.—The keel of Sir Thomas Lipton's new challenger for the American Yacht Cup, Shamrock V, was laid at the Camper and Nicholson's yard at Gosport without ceremony.

Sir Thomas was not present. The yacht will be built to a 76-foot rating under the New York Club rules and will be fitted with a motor. The rig will be the same as that of the defender of the cup, thus promising a stirring contest for supremacy.

Fort William's Founder Dead

William P. McKellar Came To Lake Head In 1868

Fort William, Ont.—Founder of the city of Fort William, Peter McKellar, is dead, at the age of 91 years. He was the last of the McKellar brothers who came to the lake head 65 years ago and formed the nucleus of the first settlement. McKellar was the first to discover gold, silver, copper and lead in the Fort William area. He was a member of London and American Geological Societies.

New Liner Near Completion

London, Eng.—It is announced that the "Empress of Japan," the new 25,000-ton oil burner liner now being built by the Fairchild Shipbuilding Company, Ltd., Scotland, will be launched on December 17 by Mrs. E. R. Penrose, wife of R. R. Penrose, director of the Canadian Pacific Railway. The "Empress of Japan" is to be placed on the Pacific service of the Canadian Pacific between Vancouver, Japan and China.

Fire Causes Serious Loss

Winnipeg.—Fire destroyed the large cattle barn at the Manitoba Agricultural College and town of hay stored in the loft of the building. The loss is estimated at \$50,000.

W. N. O. 1810

Writ Has Been Issued

General Higgins Asks Transfer Of Salvation Army Property

London, Eng.—A writ on behalf of the executors of the late General Bramwell Booth has been issued. The writ was served immediately on General Booth's executors, Mrs. Booth, Commissioner Catherine Booth, his daughter and a solicitor, Sneath. The situation at present is that while all property of the army in Great Britain is controlled by General Higgins, its ownership remains in the hands of General Booth's executors.

An All-Canadian Menu

Food From Every Province Will Be Featured At Winter Fair

Ottawa.—A menu featuring foods gathered from coast to coast will be a feature, arranged by the architecture department for the opening of the National Winter Fair at Toronto, on November 20.

There will be oysters from Prince Edward Island, fish from Nova Scotia, maple syrup from Quebec, beef from the west, fruit from Ontario and British Columbia, a little something from each and every province to suit the epicurean tastes of the cattlemen.

Will Erect Modern Elevators For Crop

France To Have Up-To-Date Facilities For Handling Wheat

Coulommiers, France.—France is to have a modern system of grain elevators. Strange as it may seem, there are no elevators in France, and most of those that are modern are at the ports.

France's wheat crop is stored rather haphazardly. Jean Hancey, Minister of Agriculture, told a congress of farmers here that the government would help to build enough up-to-date elevators to handle 20,000 bushels, a tenth of this year's harvest.

Plan Pacific Air Liners

Monster Dirigibles To Operate Between California and the Philippines

Akron, Ohio.—Two monster dirigibles, the largest in the world, are to be constructed and placed in regular operation between Southern California and the Philippines, in 1933, by the Pacific Zepplin Transport Co., according to Paul W. Litchfield, chairman of the board. The Pacific liners will carry 80 passengers and tons of mail, express and freight. They will cut in half the crossing time now made by the fastest boats.

Canadians Are Defined

Dominion Statisticians Settle Controversy Of Long Standing

Ottawa, Ont.—Every one of Canadian nationality is a Canadian every one born in the Dominion is of Canadian birth; and every one whose family has been in three generations' residence or more in Canada is a Canadian "in a special sense," according to a report issued by R. H. Coates, Dominion statistician.

The report would seem to settle a controversy of long duration as to just what constitutes "a Canadian."

New Position For Dr. Gunn

Victoria.—Dr. W. R. Gunn, at present identified with the health and animal section of the Federal Department of Agriculture with headquarters in Toronto, has been appointed livestock commissioner for British Columbia, according to announcement of the provincial minister of agriculture, W. A. Mackenzie. Dr. Gunn will assume his new duties on December 1.

Leaves What Post

Winnipeg.—E. B. Ramsay officially leaves the post of general manager of the Canadian Cooperative Wheat Producers and takes over the chairmanship of the Board of Railway Commissioners. No successor to Mr. Ramsay has been named. He will continue to act in an advisory capacity on any matters which have come up during his tenure of office.

Dunning Will Come West

Ottawa, Ont.—Hon. Charles Dunning, Minister of Railways, will join Premier Mackenzie King on the latter part of his western tour and return with him to Ottawa. Mr. Dunning will meet Mr. King at Regina, where the prime minister is returning, and will be present at the various meetings held on the eastward journey.

VICTORY FOR FERGUSON FORCES IN ONTARIO

Toronto.—Premier G. Howard Ferguson, with his Conservative government intact and a greatly increased army of supporters, is now more solidly entrenched as the dominant political force in the province of Ontario.

Their ranks shattered by the defeat inflicted by the Conservatives in rural strongholds they regarded as invulnerable, only a corporal's guard of opposition strength will face the government when the legislative assembly, the 18th in the history of the province, convenes to enact the legislation for a greater Ontario, on which Premier Ferguson based his appeal to the people.

In giving the Ferguson government a mandate to administer the affairs for a third successive term, the people of Ontario gave the administration the strongest legislative representation ever accorded a government in the province.

The sweeping victory which exceeded the hopes of the most optimistic government supporters was a ringing answer to the prime minister's declaration that he was willing to stake his political life on the success of the government's policy of control and sale of liquor by the government—the issue which he was returned to power in the 1926 general election.

The standing as compared with the election follows:

Party	1926	1929
Conservatives	93	77
Liberals	9	21
Progressives	3	11
U. F. O.	1	13
Ind. Conservatives	1	0
Liberals-Progressives	1	0
Deferred	1	0
Doubtful	1	0

Total

112 112

The landslide swept the Ferguson government into power with at least 93 supporters in a house of 112 members, a record achieved with it, H. G. Leithbridge, the 74-year-old Progressive party leader who waged a hard fight in West Middlesex.

He lost the seat in a three-cornered contest to Dr. L. W. Freche, the Conservative candidate by the slim minority of 39 votes.

W. E. N. Sinclair, K.C., the Liberal leader, saw his forces which numbered 21 in the last house, dwindle to nine. He was re-elected in Ontario South, but his majority of more than 2,000 in the 1926 election was cut down to a bare 1,000.

Submarine Sets Depth Mark

Spexia, Italy.—The Italian submarine "Tito Speri," 830 tons, submerged to the extraordinary depth of 343 feet in tests and remained there 20 minutes. Experimental hydrophone communication was carried on from the depths with the submarine "Sesosa" on the surface.

Arab Boycott In Jerusalem

Jerusalem.—Two hundred Jewish shopkeepers of the old city submitted a memorandum to the high commissioner, Sir John Chancellor, declaring that an organized Arab boycott of Jews was still going on. Arab pickets were said to be watching the entrances of Jewish shops destroying all goods purchased there by Arabs.

Favorite Star Goes C.P.R.

Winnipeg.—A photograph of a woman, identified as a Canadian Pacific train passenger, was shown here, revealing that she is a favorite star of the C.P.R.

FAMOUS WOMAN EXPLORER

Question Is Now An Issue In British House Of Commons

London, Eng.—The House of Commons adopted an amendment for appointment of a committee to report on the possibility of abolition of capital punishment.

When debate opened on a private member's resolution for abolition of the death penalty, Right Hon. John R. Clynes, secretary for home affairs, expressed government sympathy with the idea, but said the question of an alternative to such punishment was the rock on which all projects for abolition had split.

He agreed with the amendment finally adopted for study of the matter, which he hoped might lead to some practical result. In the course of the discussion Lady Astor expressed great disappointment in the attitude of the minister. She had broken a ten-year custom earlier today by appearing at the afternoon session without a hat as most of the other women have done regularly.

Lady Richmond Brown, distinguished woman explorer, who has arrived in New York from England, in January she leaves for the wilds again, at the head of an Amer-Indo expedition, with which Mr. M. Mitchell Hedges, famous explorer, will be connected. She was with Mr. Hedges on his party discovered the Chinaman Indians in a hitherto totally unknown part of Panama.

Edmonton Students Hear Unusual Lecture

Former German Officer Gives Address At Edmonton Military Academy

Edmonton, Alta.—With a former commander in the Imperial German navy relating his own experiences in the battle of Jutland, famous naval encounter of the world war, the Edmonton military academy heard an unusual lecture here.

Brick Allevold, who fought as a German officer in all the major naval engagements of the war, and to whom the academy listened, came to Alberta two years ago, and is now a progressive farmer in the Brightland district.

Albertian Wins Huge Sum

Quebec.—George Kowalski, of Quebec, Alberta, and James Westcott, of Springfield, Mass., won the first two prizes each amounting to \$70,398.50 in the Army and Navy Veterans' sweepstakes on the Cambridgeport race track, England. The sweep was arranged so that each horse was drawn by two ticket holders. Both of these men drew Double Six.

Arab Boycott In Jerusalem

May Abolish Capital Punishment

Question Is Now An Issue In British House Of Commons

London, Eng.—The House of Commons adopted an amendment for appointment of a committee to report on the possibility of abolition of capital punishment.

When debate opened on a private member's resolution for abolition of the death penalty, Right Hon. John R. Clynes, secretary for home affairs, expressed government sympathy with the idea, but said the question of an alternative to such punishment was the rock on which all projects for abolition had split.

He agreed with the amendment finally adopted for study of the matter, which he hoped might lead to some practical result. In the course of the discussion Lady Astor expressed great disappointment in the attitude of the minister. She had broken a ten-year custom earlier today by appearing at the afternoon session without a hat as most of the other women have done regularly.

Solved His Problem

Immigrant Out Of Work Broke Window To Get Jail Term

Saskatoon, Sask.—Falling in his search for employment during the past month and being without friends in this country, Joseph C. Jackson, immigrant, solved his problem of the unemployment problem by throwing a brick through the plate glass window of the government liquor store of the Third Avenue.

The crash of the glass evidently was noticed at the time so Jackson was hunted up by a sergeant of the police and told his story, and was taken to the cells. In jail court he admitted his crime, and stated that he fully expected to go to jail, and was not disappointed for Magistrate Brown sentenced him to six months in Prince Albert.

Received News By Radio

And V.C. Held In Isolated Settlement Will Attend Sir's Dinner

Winnipeg.—Word of the Prince of Wales' dinner to be given November 9 in honor of all those who won the Victoria Cross, trickled into a little settlement 100 miles from Salmon Arm, B.C., recently Major J. McGregor, stationed at the little settlement, received the news over the radio.

Major McGregor, whose valor on the field of battle while serving with the 2nd Canadian Rifles, earned him the V.C., lost no time in setting out on a hurried trip to New York from where he sailed on the S.S. Olympic for London. He reached 100 miles from Salmon Arm, B.C., recently Major J. McGregor, stationed at the little settlement, received the news over the radio.

Destroyers Ordered To China

U.S. Division Intended To Remain At Manila, Orders Despatching the 45th Destroyer Division Immediately to Chinese waters, "in view of a possible need there," were received at Manila, where the fleet is based.

The destroyers arrived here recently for the navy day celebration, and apparently intended remaining for some months. Naval officials were reluctant to discuss the order returning the destroyer fleet to China, whence it had just returned.

Is Protecting Employees

Chairman Of Chicago Firm Guarantees Stock Market Account

Chicago, Ills.—In a copyrighted article, the Herald Examiner said that Julius Rosenwald, chairman of the Board of Sears-Roebuck and Company has guaranteed the stock market accounts of the more than 40,000 employees of the company.

He has pledged his personal fortune of millions of dollars to prevent any employee facing the danger of losing their savings swept away, the story said.

EDITORIAL
Guess how long in inches is a dollar bill. He who knows by the wrong. We hit on that one too.

Have you inspected the efficient oil air cleaner on the McCord tractor? It's a great feature—keeps gritty, grinding dust and sand out of the engine and saves wear and tear.

Every body that a woman gives in some form of emotional refreshment, strengthens her for two extra hours of labor. This, alone, should be reason enough for the installation of good radio on every farm. An Atwater Kent will do better than that. Think it over.

Big farms, little farms, and all soil conditions.

"Good Equipment Makes a Good Farmer Better."

can be fitted out with some kind of a McCord-Deriving Tractor. Plover.

Perhaps the quickest way to rid a henhouse of lice is to get a banana stalk from the grocer and hang it in the house. The mites will be attracted to it, crawl on it, and when it can be removed and burned in the very near future Champion is to have an up-to-date bakery. We are glad to welcome this new industry to Champion.

Win Penn Motor Oils "Still the Best" A "join" is either a low link from a butcher or a low quarter of the town—the lower the tougher.

Here are some of high prices on Atwater Kent Radio, Special Seven-grid circuit, perfected by Atwater Kent to make complete use of the new Screen Grid tubes. Many times

greater amplification and sensitivity need not be possible by Atwater Kent method of using Screen Grid Tubes.

He: "I take after my mother."
Him: "How is that?"
He: "I can't raise a mistake."

Doc: "Do you sleep on the flat of your back?"
Patient: "No the back of my fat."

Fred Clever told us this one we got to pass it along. "How did you find yourself after last night's party?" "Oh, I just looked under the table, and there I was."

And his truth endureth to all generations.
Thanksgiving and Armistice Day Service will be held on Sunday Nov. 10th at Bow Valley at 11 a.m.
Champion at 7.30

Mrs. C. Williams is convening the musical numbers for the evening service.

Hallowe'en Party At Guess Ranch

The Guess ranch was the scene of a very happy Hallowe'en party on Friday evening, when Mr. and Mrs. Royal Ruggles entertained a number of their friends old and young, nearly all of whom came in masquerade costumes. The house was decorated in orange and black, witches, cats, and etc. Much merriment was caused by the comic costumes representing boys and girls from two to six. Those not in costumes were fined 25c. Girls were auctioned off by Mr. Brooks behind a curtain, bids not to exceed 25c. A total of \$4.35 was made and donated to W. M. S. The prizes were awarded to little Violet Huggles, best boy C. D. Brooks, best comic Neville Scott. A pumpkin making contest was won by Mrs. F. Stevens. A visit to the ghost house where Mr. Ghost was introduced after which they were initiated in the electric chair. Needless to say one and all had a great time of their life. Dancing was continued until supper was served at midnight and the fun went on until morning.

Mrs. Devereux

Showered

Mrs. Clarence Purcell and Mrs. Gerni were hostess to a miscellaneous shower on Thursday in honor of Mrs. Don Devereux. The house was decorated in pink and white, the gifts were many and beautiful. Over thirty were present from Claresholm, Camanage, Staveland, Vulcan and Champion. The bride was given good advice from those present as "How to manage her husband," which made much fun. Delicious refreshments were served.

The Elks have arranged a dance in the community hall on Friday, Nov. 15th. The Len Davis orchestra will furnish the music.

We try to make buying pleasant

We know you will trade where you get the best service, the best values, the most complete line of goods and mark goods at the fairest possible price.

Of course, we have to have a store, but we always try to make these quality food-products that mean a reputation for quality. It takes energy, it takes energy, it is in energy, and it is economical too. We have it, together with many other food specialties.

The most economical way to buy foodstuffs is to do so in large quantities. Come behind us in help you get the best value.

H. C. Ficht is a visitor with H. E. Tindall, driving over from Lomond on Tuesday.

Mrs. F. Wise and family are occupying the G. F. Smith residence moving in Saturday.

Orville Smith and family have moved into the house formerly occupied by Mrs. Campbell.

Mrs. C. Robinson was moved to Mrs. R. Taylor's home on Tuesday and is in a serious condition.

Be sure and send in parcels for the fish pond and parcel post for Nov. 16, Mrs. Bond convenor.

Mrs. Bastin spent a few days in Lethbridge visiting her daughter, Helen, who is ill with typhoid fever.

Real entertainment—The Maude Henderson Players—This Thursday, Friday and Saturday. Don't miss a show.

Contributions for the produce table at the Ladies' Aid bazaar are solicited. Those whose wish to donate same please communicate with Mrs. C. Williams.

E. Latiff returned this week from Vancouver, where he had been called by the illness of his brother. The invalid had made such satisfactory progress after an operation Mr. Latiff was able to leave him.

Better than Chautauque, the Maude Henderson Players. This Thursday, Friday and Saturday—change program every night.

A birthday was held at the home of Mr. and Mrs. J. W. Murphy on Tuesday, when Miss Kathleen Murphy entertained a number of her friends after school. Judging by the smiles on the young faces, a real good time must have transpired.

Measrs. P. Holm, Frank Racher, B. M. Roberts, T. Sletto, A. W. and H. Jopling are out on a deer hunt. When last heard from they were still hunting with every hope of success.

Local Stockmen Win Honors

At the Calgary Show and Sale A. S. McDougall's entry, Lismore Darling 2nd, was reserve champion in the shorthorn heifer class, and Lismore Hope was the reserve champion bull. Mr. McDougall also won the championship ribbon for an Oxford mare, the championship for a ewe in the same class going to B. H. A. McDonald of Campanion. The latter also took 2nd, 3rd and 4th place for a ram lamb, 1st and second for ewes, and 1st and second for ewe lambs. A. S. McDougall was third in the Hampshire ram class.

Mr. and Mrs. Ayote and son Richard left by car for California on Wednesday.

Mrs. J. S. Collins visited Calgary during the week.

Joe Hicks, barrister, of Barons, will be at L. J. Adams' office every Tuesday and Friday where he may be consulted.

MYSTERY that enthralls—romance that fires—sister intrigue—with a bride as the pawn in a game of wit. That's the Women in White.

K. R. McLean R. O. of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, November 22, at the Drug Store.

Out of the dark past clutching hands reach for a beautiful girl, dragging her to a mad home cell until she unravels a deep mystery—See The Women in White.

The Catholic Women's League will hold a bazaar in the community hall on Nov. 30th.

Ladies' Aid Bazaar Saturday, Nov. 16

The bazaar will be opened at 2.30 in Community Hall. Rev. S. R. Hunt will give a short address and "O Canada" will be sung. Mrs. Walker will be piano accompanied by Gladys Rhodes. Everybody welcome. Remember the date—Saturday, Nov. 16.

Special Service For Thanksgiving

Everyone in this section of Alberta will wish to join in a Thanksgiving service this year, we have been well favored. The United Church is giving an invitation to all in the words of the Scriptures.

A Great Family Newspaper

The Family Herald and Weekly Star is well known as Canada's outstanding farm and home paper. It is launching another of their popular Know Canada Contests, in which \$2000.00 are being given as prizes. The First Prize is \$1000.00. Each week four pictures are published and readers are asked to decipher the Canadian post office their represent. It is a most interesting pastime combining a great deal of real amusement and entertainment with an opportunity of carrying off a very nice sum of money in prizes. It is a Contest that will interest every one of our readers and details of it can be had for the asking. A letter to the Family Herald and Weekly Star, Montreal, will bring you all the particulars and a sample copy of the paper too and of course, it does not obligate you in any way.

Winter Protection For Perennials

Prudent winter protection for perennials flowers. In order to do this the less hardy ones should be given special care by covering the plants just before freeze-up with three to four inches of straw litter. This should be allowed to remain on the plants until the middle of May. Straw covering aids in retaining additional snow. Such protection should be given to Pinks, Pansies, Hollyhocks, Lupines, Canterbury Bells and newly planted Peonies. The latter should have their crowns two to three inches below the surface but it is well to bear in mind that an additional four inches of straw should be added after freeze-up. After the first winter prunings should not require further winter protection.

A subject of frequent inquiry along this line at the Dominion Experimental Station, Scott, is winter protection for roses. The method used at this station for protecting Hybrid Perpetual and Hybrid Tea roses is to tie up all growth loosely and earth it around to within two inches of the top. After the ground is frozen the whole is then covered with six inches or more of straw litter. In the spring the straw litter is removed a few days before the soil is again levelled. Following this the branches are trimmed back about one third, leaving an outside bud on top but care is taken to cover embushes with canvas or boxes at which front are expected in the spring.
